<u>react.js</u>			

## PROJECTS

### Personal Portfolio Website

Developed a personal portfolio website using HTML, CSS, and JavaScript.

- Developed a personal portfolio website using HTML, CSS, and JavaScript to showcase education and projects.
- Integrated interactive features for a dynamic user experience.
- Responsive design to ensure compatibility across devices.

### Book Store

Full-stack book store application built for CRUD operations with user authentication.

- Built a full-stack book store application that allows users to perform CRUD operations (Create, Read, Update, Delete).
- Implemented user authentication, book search functionality, and dynamic content rendering.
- Used MongoDB for data storage and React for the front-end interface.
